Apart from promoting your books assiduously online, there are a number of other methods that may enable you to promote more books.

One is to offer something away free of charge with your guide, corresponding to a priceless bonus item. Or bundle several ebooks under one worth, which lowers the value for each e-book if they have been sold separately.

An effective method for figuring out a price is to send out a survey to your present customers. If these clients have already bought an e book from you, ask for their opinion when it comes to price. Do that by creating a gross sales web page for the new ebook, however do not include a price on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

One other strategy is to test out costs by making a variety of duplicate sales pages with completely different costs on every page. Be sure your sales copy is exactly the same on each page, and

includes your promoting-deal with sentence. Then work out for each web page the conversion ratio between guests to your website and gross sales of your book. This will tell you what your optimum value is.

Ultimately, if you've written a ebook that solves a drawback or presents a new method, your book will usher in both visitors and profits. So make sure to write that selling-deal with sentence that sums up what downside your e-book solves and what the advantages of your 1383 e book will probably be to the customers who purchase it.
