Moreover promoting your books assiduously online, there are a number of different strategies that can help you promote more books.

One is to give something away free of charge together with your book, corresponding to a valuable bonus item. Or bundle a number of ebooks below one value, which lowers the worth for each e book in the event that they have been sold separately.

An effective approach for figuring out a price is to send out a survey to your current customers. If these clients have already bought an ebook from you, ask for their opinion when it comes to price. Do this by creating a gross sales web page for the new e-book, however do not include a price on that page. As an alternative, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out prices by creating a variety of duplicate gross sales pages with totally different prices on every page. Ensure that your sales copy is strictly the identical on

every page, and consists of your promoting-deal with sentence. Then determine for each web page the conversion ratio between guests to your website and sales of your book. It will inform you what your optimum price is.

Finally, for those who've written a e-book that solves a problem or presents a new approach, your guide will bring in both site visitors and profits. So remember to write that promoting-deal with sentence that sums up what drawback your ebook solves and what the advantages of your 1640 e-book can be to the purchasers who buy it. And then watch your market come to you!
