An effective technique for determining a price is to ship out a survey to your current customers. If these prospects have already bought a book from you, ask for their opinion when it comes to price. Do that by making a gross sales web page for the brand new book, but do not embrace a worth on that page. Instead, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to test out costs by making a variety of duplicate sales pages with totally different costs on every page. Ensure that your gross sales copy is exactly the same on each page,

and contains your selling-deal with sentence. Then figure out for each page the conversion ratio between visitors to your web site and sales of your book. This can tell you what your optimum value is.

Ultimately, if you happen to've written a e-book that solves a problem or presents a brand new approach, your e book will bring in each site visitors and profits.
