Apart from promoting your books assiduously online, there are several different methods that may allow you to promote extra books.

One is to offer something away free of charge along with your e-book, such as a precious bonus item. Or bundle a number of ebooks below one price, which lowers the value for each book if they have been sold separately.

An efficient approach for determining a worth is to ship out a survey to your present customers. If these prospects have already bought an e book from you, ask for his or her opinion when it comes to price. Do that by making a sales web page for the brand new book, but do not embrace a worth on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out costs by creating a number of duplicate sales pages with different costs on each page. Ensure your gross sales copy is exactly the identical on every web

page, and consists of your selling-handle sentence. Then determine for each page the conversion ratio between visitors to your web site and sales of your book. It will let you know what your optimum value is.

In the end, for those who've written a book that solves a downside or presents a new technique, your ebook will bring in each traffic and profits.
