An effective approach for figuring out a price is to send out a survey to your current customers. If these customers have already bought an ebook from you, ask for their opinion in terms of price. Do that by making a gross sales page for the brand new book, but don't include a value on that page. Instead, add quite a few links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to test out costs by creating a number of duplicate gross sales pages with different costs on each page. Be certain that your gross sales copy is strictly the identical on every page, and contains your promoting-handle sentence. Then figure out for each page the conversion ratio between visitors to your site and gross sales of your book. It will let you know what your optimum price is.

Ultimately, if you've written a ebook that solves a drawback or presents a new method, your e book will herald both visitors and profits.
